PUBLIC SPIRITED MUNICIPAL EXPERT IS JUAREZ'S NEW MAYOR

Francisco Portillo Has Many Evidences of Ability—He May Remain Permanently.

Will Francisco Portillo remain as

jefe politico of Junrez? That is the question now most interesting to the people of the Mexican city across the river. There is great preparation for activity in much needed civic improvements, much need of a cool head to direct the affairs of the And Francisco Portillo is pointed

to as the man for the work. It still is a doubt whether he will stay. Mr. Portillo arrived only a few weeks ago to take the place of Felix Barcenas, now in the City of Mexico. But yet no definite word has been re ceived. Mr. Portillo was commissioned by governor Creel to fill a supposedly temporary vacancy, usually occupied by one of the alternatives to the chief

A Municipal Expert. Already the new jefe has begun work with all apparent intentions to remain. Already the people of Juarez are enthused with his energy and abilprofession a civil engineer, has a long

FRANCISCO PORTILLO.

and brilliant record. His whole life has been devoted to the sort of work most needed by the border city. has served as jefe politico of many Mexican cities, and is highly skilled in the business management of munici-

Educated in Mexico City.

He was born in Santa Rololia, new called Ciudad Camargo, but early went to the City of Mexico. There he was educated in the old literary institute, specializing in philosophy and mathe-

At the age of 17 years he again went to the capital, where he studied at the National Preparatory schools and ontered his course in the national school of engineers, receiving his title after a highly percentaged examination. At an age he was appointed spectake charge of the government lands in the state of Sonora, later receiving a commission from the secretary of state to take charge of colonization of free lands.

Early in Government Service. After some years in this service, Mr. Portillo was appointed to a special commission on the national debt investnent, which finished certain payments. After concluding this work he continued in the same service, gaining a good name as financier of custem houses. mines, rafilways, ports, and general

In 1903 he received the appointment as jefe politico of the Camargo district through Gen. Terrazas, constitumained in municipal service until 1905. Two years later he was appointed by governor Creel as jefe politico of Jimmenez.

Improvements in Camargo.

During his administration in Camargo Mr. Portillo rebuilt the municipal buildings of that city, arranging the special departments for the judges, musecretary and health department: He has also paved the Juarez plaza; rebuilt the Hidalgo monument in the plaza of the same name. Also under his direction the official girls's school was built, a modern and ornamental structure, as well as constructing a factory according to his own

Of great interest in the uplift of humanity, Mr. Portillo as chief executive of Jiminez did much in the fight against liquor, procuring the strict law enforcement to protect the people from drunkenness.

Other municipal accomplishments of the active mayor were street paving, constructing of all municipal buildings, instalment of electric lights for the city and telephonic communication with other towns of the district in his

charge. Lifted Jimenez's Debt. It is important to observe that Mr. Pertillo caused the increase of the city

reer at Jimenez in 1909, taking up residence in the City of Mexico. This nous career as public servant.

RAILWAY CAN'T STOP A CITY FROM PAVING day.

Auurin Tex. April 27 .- The Texas suprome court today reversed the decision of the court of civil appeals and affirmed the district court in the case of the city of Denison against the Den-

ison & Sherman railway. The road had secured an injunction preventing the gity paving a certain block on the grounds that it interfered with track Today's ruling dissolved the injune tion and it is the city's victory,

BOOSTING TRIP

Business and Pleasure Itinerary Includes Many Eastern Cities and Coast Resorts.

With New Orleans still wide eyed and wondering from the visit of the Ei Paso Shriners, the El Paso Elks are planning a "Southwestern special" trip to the east, the tour to include Kansas City, Chicago, Detroit, Niagara Palls,

New York City and other points. The railroad authorities mated that if the Elks are able to muster as many as 200 people for the trip, low rate for transportation will be made, and inasmuch as the Elks of Bisbee, Douglas, Las Cruces and Tueson are to be invited, it is believed that the required number will be secured. The Elks plan to leave El Paso about July , and will be gone about three weeks, attending the annual reunion at Detroit meantime. There was a meeting of the Eiks committee Wednesday afternoon

The boosting trip is to be enjoyed by the wives of the Elks and it is expected that a number of El Paso women will

The tour will be officially known as "The Southwestern Special," and while pleasure will be paramount, the special will stop at stations for distribution of literature and platform speeches from

STOCKYARDS HURT NOBODY, HE SAYS

Alderman Blumenthal Says on the Contrary They Benefit City.

The Cameron stockyards, down in the second ward, are not going to harm anybody and will do the city a great deal of good, alderman Blumenthal thinks.

Discussing the recent action of the city council relative to first stopping the work and then allowing it to go on alderman Blumenthal said:

"John T. Cameron secured a permit from the building inspector to build the stockyards in question and no member of the council knew that such action had been taken or that they were in course of construction. He simply did not know how to go about it, and was not aware of the fact that he must secure permission from the ially by the bureau of agriculture to sanitary committee of the council to bulld the pen.

"Therefore, when the matter was he ordered the chief of police to stop the construction and Cameron came around to see about it, explaining the situation. Mayor Sweeney then appointed a committee, composed of aldermen Bobinson, Clayton and myself, to investigate. We found that the buildings were 1200 feet east of the Rosenoaum grain elevator along the bank of the Rio Grande, and not calculated to become a nuisance, so he was permitted to go ahead with the buildings

"Cameron will import from 20,000 to 30,000 head of cattle a month from Mexco, and we must encourage the starting of such enterprises. Cameron's reason for constructing the yards was that he had been shipping to other yards in the city and they had been charging him \$1 per bale for alfalfa, which worked a hardship on him, as he could not afford to pay uch a price for feed. believe the stockyards will benefit El Paso and will not injure anyone, because they are so located as not to interfere with residents; in fact, a better location could not be found."

WORKING FROM FIVE

A. M. TO ELEVEN P. M. A new stunt is being tried in "pouring" the third floor of the new Roberts-Banner building. Instead of working all night and a part of the next day. the cement men began work at 5 o'clock Wednesday morning and hit it up until 11 at night, getting the floor surface of the third story poured as nearly as possible at the same time.

CLOUDCROFT LODGE TO BE ON HIGH TRYING TO FIX WATER RATE FOR HILL, OVERLOOKING WHITE SANDS

Is to Be on the Hill Above the Payne Cottages-Baby Sanatorium to Be Located Nearby.

Cloudcroft lodge will be located on the top of the hill near the W. F. and D. M. Payne cottages, between Panther avenue and Corona place. In block 30, of the Clouderoft reservation.

Engineer J. L. Campbell, of the Southwestern, architect Ottenheimer and contractor Frank Powers have returned from the mountains, where they went to stake out the ground plan of the new lodge, which is to replace the old one, destroyed by fire last June.

The site of the new hotel is about 1500 feet from the site of the old one on Chipmunk avenue, and is in a location which commands a view of the white sands, High Rolls, the White mountains and the San Andres range. The new lodge is located in the cen-ter of the loop made by Panther avenue and Corona place, and faces almost directly west, overlooking the snowy white sands below Alamogordo valley. The lights of the lodge can be seen plainly from the main line railroad at night Although no definite announcement has yet been made regarding a change in the mountain line, sur-veys have been made from a point above the present station to the site of the lodge, with a view of putting a spur in to run to the door of the hotel when completed. The spur would run around up Chautauqua canyon. Contractor Frank Powers has ship-

tains and will establish his camp at the head of Chautauqua canyon. The site for the baby sanatorium, which was also selected at the same time the hotel was staked off, is to be east of the new hotel, across Swallow place and facing the hotel. This will make it convenient for parents having sick children to stay at the hotel and be near their babies in the sanatorium. In addition to the work on the new lodge and sanatorium, a number of new cottages are being erected in the mountains. W. G. Rowe is having a number of cottages moved from Russia to the Cloudcroft reservation, and is having them rebuilt and given a rustic exterior appearance by covering them with the rough bark from the sawmills.

ped a carload of material to the moun-

At High Rolls a number of cottages are being built, in addition to the new 35 room hotel, which will be ready for ise this season. The Cloudcroft Commercial company is also building a large store in North Clouderoft, preparation for the rush which is expected this summer.

OFFICIALS COME TO SEE PAVING
